allfeeds.ai API endpoints

allfeeds.ai/api

Method: **account_info**
Description: Returns information about your account including how many calls you have remaining.

Rev. 2021-08

REQUEST FORMAT

Submit a request to the endpoint as described below, replacing **YOUR_API_KEY** with your key provided on the website:

```
    https://allfeeds.ai/api/account_info?key=YOUR_API_KEY
```

RESPONSE FORMAT

Successful result is returned as JSON with a **200** status code:

```
{
    "results": {
        "api_key": "YOUR_API_KEY",
        "ip_address": "12.34.56.78",
        "status": "active",
        "level": "basic",
        "daily_limit": 1000,
        "used_today": 355,
        "remaining_today": 645
    },
    "total_results": 1
}
```

ERROR RESULT

Any error result is returned as JSON with either a **400** or **500** status code:

```
{
    "results": {
        "error": "Description of the error"
    }
}
```

HTTP RESPONSE CODES

200: Successful result.
400: Error on your end (malformed request).
500: Error on our end.
